

Learner Environment and Engagement

Programme(s) in which it is offered: **B.A.B.Ed. English and B.Sc.B.Ed. Mathematics**

Course Category: Core	Schedule of Offering: Even
Course Credit Structure: 3	Course Code: EDN3211
Total Number of Hours: 45	Contact Hours Per Week: 3
Lecture: 2 Credits, 30 Hours	Tutorial: 1 Credit, 15 Hours
Practical: 0 Credits, 0 Hours	Medium of Instruction: English
Date of Revision:	Skill Focus: Employability
Short Name of the Course: LEE	Course Stream : NA
Grading Method: Pass/Fail, Regular	Repeatable: Non Repeatable
Course Level: Beginner	

Course Description

This course is offered as a Professional Education Course for Integrated B.A.B.Ed. and B.Sc.B.Ed. students. It is focused on highlighting the concepts related to theories of learning, understanding student diversities, enhancing classroom practices and also strategies to engage the learner in various contexts

Course Introduction

This course intends to acquaint the students with the basic theories of Teaching and Learning which the student teachers are expected to internalize and apply during the Internships. The course also tries to make the student teachers aware of the different kinds of learners that may be present in a classroom and thus develop the attitude of 'inclusion in a classroom. Strategies to make the classroom practices better and effective as well those for engaging the learners in various contexts are also discussed well in this course.

Course Objectives

1. Understand various theories of Teaching-Learning
2. Analyse student diversities in classroom
3. Synthesise strategies to enhance classroom practices
4. Comprehend strategies of engaging the learner

Course Outcomes

At the end of this course, student teachers will be able to:

1. Internalize the various theories of Teaching-Learning
2. Analyse student diversities in classroom
3. Develop the attitude of Inclusion
4. Evolve strategies to enhance classroom practices
5. Explain strategies of engaging the learner

PO-CO Mapping

This explains how the Course Outcomes (CO) are mapped with the Programme Outcomes (PO).

PO-CO Mapping Matrix

CO/PO Mapping	PO1	PO2	PO3	PO4	PO5	PO6
CO1						
CO2						
CO3						
CO4						
CO5						

Pedagogy

This course employs Lecture cum discussion, PowerPoint presentations, Library works, group activities, Assignment, Seminar, etc. All the students will have to submit an assignment. Each student is expected to take part actively in daily discussions which will be assessed for class participation marks.
